

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

# CLUBBING OFFER

## ECOLOGY

Devoted to All Forms of Life in Relation to Environment

Established, 1920

Quarterly

Official Publication of the

ECOLOGICAL SOCIETY OF AMERICA

Subscription, \$3 a year.

Back volumes, \$3.50 post free

## GENETICS

A Periodical Record of Investigations in Heredity and Variation

Subscription, \$6 a year

Bi-Monthly

## BROOKLYN BOTANIC GARDEN MEMOIRS

Volume one contains 33 contributions on genetics, pathology, mycology, physiology, ecology, plant geography, morphology, and systematic botany

521 pages, 38 plates, 41 text figures

Price, \$3.50 plus postage

Weight, 4 pounds

### CLUBBING OFFER

American Journal of Botany .....	\$6.00
Ecology .....	3.00
Genetics .....	6.00
Brooklyn Botanic Garden Memoirs 521 p. ....	3.50
<hr/>	
Total .....	18.50
20 per cent. off .....	3.70
<hr/>	
All four for .....	\$14.80

This offer holds good only when prepaid orders are placed direct, and *not through an agency*. Address

BROOKLYN BOTANIC GARDEN,

Brooklyn, N. Y., U. S. A.

## MARINE BIOLOGICAL LABORATORY WOODS HOLE, MASS.

### INVESTIGATION—Entire Year

Facilities for research in Zoology, Embryology, Physiology, and Botany. Seventy-six private laboratories, \$100 each for not over three months. Thirty tables are available for beginners in research who desire to work under the direction of members of the staff. The fee for such a table is \$50.00.

### INSTRUCTION—June 28 to August 8, 1922

Courses in laboratory instruction with lectures are offered in Invertebrate Zoology, Protozoology, Embryology, Physiology and Morphology and Taxonomy of the Algae. Each course requires the full time of the student. Fee, \$75. A lecture course on the Philosophical Aspects of Biology and Allied Sciences is also offered.

### SUPPLY DEPARTMENT—Open the Entire Year

Animals and plants, preserved, living, and in embryonic stages. Preserved material of all types of animals and of Algae, Fungi, Liverworts and Mosses furnished for class-work, or for the museum. Living material furnished in season as ordered. Microscopic slides in Zoology, Botany, Histology, Bacteriology. Catalogues of Zoological and Botanical material and Microscopic Slides sent on application. State which is desired. For catalogues and all information regarding material, address

**GEORGE M. GRAY, Curator, Woods Hole, Mass.**

The annual announcement will be sent on application to The Director, Marine Biological Laboratory, Woods Hole, Mass.

## Griffiths West American Fungi

A few sets of *Centuries I-IV* of West American Fungi collected by DR. DAVID GRIFFITHS, are offered for sale at Seven Dollars a Century by

### Brooklyn Botanic Garden

Also numerous books, separate reprints, pamphlets, and Experiment Station Bulletins from the library of Dr. Griffiths. Complete price list on request.

Orders, accompanied by remittance, should be addressed to

**The Secretary, Brooklyn Botanic Garden**  
978 Washington Avenue BROOKLYN, N. Y.

# Professional Advancement Service

---

THE PROFESSIONAL ADVANCEMENT SERVICE seeks to aid men and women in botany and related subjects in securing such positions as they may desire, and to offer to heads of departments, or directors of laboratories, experiment stations, or other institutions an opportunity of making known the vacancies they seek to fill.

THE METHOD OF THE SERVICE consists in publishing in the American Journal of Botany a brief notice stating the training and experience of the applicant or the requirements of the vacancy. Each person using the Service is designated by number and his identity may be learned on application to the Business Manager of the American Journal of Botany. A list of eligibles and open positions is kept, and inquiries are referred to the advertisers who are mentioned or seem best suited to the requirements stated. The Professional Advancement Service may thus have the opportunity to mention a man for a desirable position or a promotion a number of times during a period of several months. The charge for the service is \$2.00 for each case for one year or less. The notice regarding qualifications offered or desired will be published at frequent intervals, but not more than ten times.

Address: The Business Manager, American Journal of Botany, Brooklyn Botanic Garden, Brooklyn, N. Y.

---

**No. 40.** Ph.D. (eastern university), June, 1921, broad training in zoology, physiology, chemistry, and bacteriology, besides botanical sciences (morphology, pathology, mycology, cytology, physiology). Teaching experience in eastern universities, and in land-grant college. Recommendations of the best description as to abilities in teaching and research.

---

**No. 41.** Professor of Botany (Ph.D., 1909) with fourteen years teaching experience, nine in the present location, wishes a change of position. Special interest in Physiology and Pathology. Teaching with ample time for research, or full time research in fungous nutrition especially desired.

---

**No. 42.** Western state university needs young man as assistant or instructor; bachelor's degree required, with at least 20 hours botany and 10 hours chemistry. Applicant should speak English correctly and as a matter of habit. A modest knowledge of Latin is necessary. Initial salary \$1,200 to \$1,400 per annum. Work begins Jan. 1, 1922, or later. The man appointed will be expected to do some graduate work in botany or zoology.

---

**No. 43.** Botanist, possessing B.A. and M.A. degrees from a leading university, desires position in Eastern college, university, or collegiate institute. Is interested chiefly in Morphology, Systematic Botany, and Ecology. Has eleven years' experience in college teaching and has published several books and papers on botanical subjects.

---

**No. 44.** Botanist, B.S. and M.S. from a university, desires college or university position in botany after June 10, 1922. Specially interested in ecology and taxonomy. Four years' teaching experience in college, including one year in a state university as acting assistant professor of botany. Member Botanical Society of America and Ecological Society of America.

---

**No. 45.** Botanist, Ph.D., with thirteen years' experience in teaching and administrative activities, desires a change of position offering opportunity for both teaching and research, and financial betterment. Has taught morphology, dendrology, physiology, mycology and plant pathology; good technician; especially interested in dendrology and physiology, with several publications in these fields; can handle large classes.

---

**No. 46.** A graduate of eight years' standing of large southern agricultural college, four-year course, and eight months of graduate work in middle western agricultural college, interrupted by the war, seeks position as instructor or assistant in botany. Especially interested in plant physiology and plant pathology. Any location acceptable, but southern one preferred. Since the was has been managing a farm.

# Heredity and Evolution in Plants

By C. STUART GAGER (Brooklyn Botanic Garden)

114 Illustrations. Cloth, \$1.25

"The heredity and evolution of plants is interestingly traced, also methods of distribution, together with a description of some of the plants of geologic time and their range, and the effect of environment and conditions. The numerous illustrations aid in an understanding of the subject."—*Forest Leaves*.

"The author has given us an authoritative statement of the fundamentals of heredity and evolution as known at the present moment. The chapters form a concise and clear résumé of the different phases of the development of the plant kingdom and of the methods of studying the evolution of plants."—*School Science and Mathematics*.

"The clearness of the text is one of its chief recommendations. There are a number of unique and modern illustrations and the book as a whole can be recommended to anyone desirous of a concise explanation of plant evolution."—*The American Botanist*.

**P. BLAKISTON'S SON & CO.**  
**PHILADELPHIA**

## WHELDON & WESLEY, Ltd.

THE SCIENTIFIC AND NATURAL HISTORY BOOKSELLERS,

Have in stock nearly all requirements in books, pamphlets, and periodicals relating to Chemistry, Agriculture, Gardening, Forestry, Botany (Systematic, Economic, and Geographical), Zoology, (including Ornithology, of which the stock is probably the largest in the world, Systematic and Economic Entomology, works on Mammalia, Reptilia, Fish and Fisheries, Mollusca, Invertebrata, etc.), Microscopy, Geology, Palaeontology, Mineralogy, Mining, Metallurgy, etc., both new and second-hand.

Catalogues of any subject, price 2d. each. Any book quoted on application, and those not in stock sought for without charge.

We beg to draw attention to the fact that we hold the largest stock in the country of

### JOURNALS AND TRANSACTIONS OF SCIENTIFIC SOCIETIES,

Including Transactions and Proceedings, etc., of the Royal Society, Linnean Society and Zoological Society of London, Journals of the Chemical, Chemical Industry, Geological, Geographical, Royal Microscopical, Royal Agricultural, Horticultural, Astronomical, Physical, and other Societies, Proceedings of numerous local Natural History Societies, also Nature, Ibis, Zoologist, Curtis's Botanical Magazine, Journal of Botany, and numerous other Periodicals, British and Foreign.

Sets, runs, odd vols., and numbers quoted for on application.

Subscriptions taken for all Scientific and other Journals, which will be posted regularly on issue.

Libraries and parcels of Natural History and Scientific Books purchased.

38, GREAT QUEEN STREET, KINGSWAY, LONDON, W.C. 2.

# BOTANICAL SOCIETY OF AMERICA

Reorganized 1906, uniting the Botanical Society of America (1893), the Society for Plant Morphology and Physiology (1896), and the American Mycological Society (1903).

## OFFICERS FOR 1922

**President:** HENRY C. COWLES

*University of Chicago*

**Vice-President:** MARGARET C. FERGUSON

*Wellesley College*

**Secretary:** I. F. LEWIS

*University of Virginia, University, Va.*

**Treasurer:** IRVING W. BAILEY

*Bussey Institution, Harvard University*

### **Councilors:**

N. L. BRITTON

*New York Botanical Garden*

J. C. ARTHUR

*Purdue University*

C. E. ALLEN

*University of Wisconsin*

Any one actively interested in botanical work is eligible for membership. Candidates for membership must be recommended by three members, not members of the Council, on blanks to be obtained from the Secretary.

The annual dues are \$5.00, including one subscription to the AMERICAN JOURNAL OF BOTANY. Candidates proposed for membership, and approved by the Council, may receive one copy of the JOURNAL at \$4.00 per year pending their election at the winter meeting of the Society.

# *The Little Things That Count Big In Owning Your Own Greenhouse*

Ever gone into a hat store, knowing exactly the kind and shaped hat you want; and then have some smart Alec of a salesman try to sell you the kind HE likes?

Makes a fellow madder than a wet hen, doesn't it?

Suppose, however, that same salesman had told you something about some of his hats that meant

better service to you—more satisfaction for your money—you then sort of feel towards that salesman as you would an old friend.

Salesman number two is our sort when it comes to selling a greenhouse.

We do sell greenhouses, but we first sell satisfaction.

Catalog for the asking.
